| <input type="checkbox"/> colander  |  |  |

This is a basic list. Adapt it for the way you and the girls cook. Think outside the box—e.g., a mug can double as a measuring cup!

## Packing

Patrol equipment is to be packed in such a manner that it can be easily transported or carried onto the sub camps. It must be appropriately colour-coded and labeled. You must be able to carry your PERSONAL PATROL EQUIPMENT efficiently to and from your sub camp site. In some cases this could be a fair distance (approximately one kilometer). A small wagon or carry cart works well for moving equipment to and from the site.

*BC Girl Guides takes no responsibility for lost, damaged or stolen personal equipment of any kind.*
