This is a basic list. Adapt it for the way you and the girls cook. Think outside the box—e.g., a mug can double as a measuring cup!

Packing

Patrol equipment is to be packed in such a manner that it can be easily transported or carried onto the sub camps. It must be appropriately colour-coded and labeled. You must be able to carry your **PERSONAL PATROL EQUIPMENT** efficiently to and from your sub camp site. In some cases this could be a fair distance (approximately one kilometer). A small wagon or carry cart works well for moving equipment to and from the site.

BC Girl Guides takes no responsibility for lost, damaged or stolen personal equipment of any kind.
